

My family and I listen daily to K-LOVE radio, and it is a wonderful service to the community and the nation. No commercials, just great music! We love it because we can tune in throughout the country when traveling by car. I am concerned about the FCC's new LPFM, and I wish to discourage you from allowing LPFM to take priority over current FM translator service. Doing so will seriously jeopardize the ability of many of us to listen K-LOVE, which we often hear over translator stations. PLEASE KEEP K-LOVE ON THE AIR!!! Thank you!
